

# FIBA APPROVED EQUIPMENT GUIDE

**FIBA**  
EQUIPMENT  
& VENUE

**Dear Industry Stakeholders,**

We take great pleasure in sharing with you the FIBA Approved Equipment Guide.

The guide presents the member companies who, in cooperation with the FIBA Equipment & Venue Centre, deliver a high level of safety, quality and technology to our sport.

Each item of Approved Equipment has been tested and approved using ever-advancing testing procedures and standards. The FIBA Accredited Test Institutes provide expertise and consistency to ensure that the required standards are met. The use of Approved Equipment is recommended at all levels of basketball and is mandatory at elite level FIBA national team and club competitions.

With the advancement of 3x3 basketball, which is now an Olympic discipline, we are pleased to introduce the FIBA Approved 3x3 Equipment programme. The programme aims to increase the quantity and quality of top level 3x3 competition equipment and to raise the standard of outdoor playing equipment throughout the world.

This guide is for the benefit of venue operators, event organisers, the fans, and the basketball players – who deserve a high level of quality and safety. It also provides assistance to the National Federations, clubs, municipalities and governments who are involved in the building and refurbishment of basketball facilities.

The member companies who produce Approved Equipment are each presented on a page of the guide. We hope this guide offers useful information to all stakeholders who share our interest to create high quality and safe sporting infrastructures.

**Andreas Zagklis**  
FIBA Secretary General

## COMPANY PROFILE

Finishing and care of parquet and wood floors have been the core business of the premium manufacturer LOBA based in Ditzingen near Stuttgart / Germany for almost 100 years. LOBA also has joint ventures with Wakol in Poland, North America and Brazil, and owns a subsidiary in China. The LOBA Group currently employs around 130 people, 100 of whom work at the Ditzingen site, where all finishes, oils and care products are developed and manufactured. Technical excellence, top-quality environmentally friendly products and the extremely well-focused customer orientation are the key factors for the success of the LOBA brand in over 60 countries – since 1922. LOBA On Top!
